### Предназначение:

Используется для соединения секций кабельного лотка с различной шириной основания.

### Материал:

Сталь

### Варианты исполнения:

- Сталь оцинкованная по методу Сендимира;
- Горячеоцинкованная сталь;
- Нержавеющая сталь;
- Порошковая краска.

### Единица измерения:

шт. (штука)

### Кратность:

1 шт
